AGUAJE

Mauritia flexuosa

AGUAJE

Amazonian Superfruit – Organic

100%
ORGANIC

Aguaje (*Mauritia flexuosa*) is a premium Amazonian superfruit valued for its antioxidant-rich profile and essential fatty acids, including Omega 3, 6, and 9. Naturally high in beta-carotene and Vitamin E, it is widely used in functional nutrition, wellness, and cosmetic applications.

Antioxidant

Rejuvenation

Vitamin Source

ORIGIN & SUSTAINABILITY

Known in the Peruvian Amazon as the “Tree of Life”, Aguaje is responsibly harvested by indigenous communities, supporting biodiversity conservation and sustainable economic development.

FORMULATION ADVANTAGES

- Antioxidant-rich
- Source of Vitamin E and essential fatty acids
- Supports skin nourishment and vitality
- Sustainable, community-based sourcing

AGUAJE PRODUCTS

Spray - Dried Powder

Premium Amazonian ingredient developed for applications in functional foods, nutraceuticals, and natural cosmetics. Processed using spray-drying technology to preserve its nutritional profile and ensure stability in industrial formulations.

APPLICATIONS

Functional foods • Nutraceuticals • Cosmetics

FUNCTIONAL ATTRIBUTES

- Rich in oleic acid (Omega 9)
- Source of carotenoids (pro-Vitamin A)
- Contains phytosterols and palmitic acid
- Supports skin nutrition and hydration

AGUAJE OIL

Cosmetic-Grade Amazonian Oil

- . Ideal for hair conditioners, body creams & moisturizing formulations
- . Suitable for cosmetic & personal care applications

FORMULATION ADVANTAGES

- High content of oleic acid (Omega 9)
- Rich in carotenoids (Vitamin A) and phytosterols
- Supports skin nourishment, hydration, and rejuvenation in cosmetic formulations.

FUNCTIONAL PROFILE

100% Pure Aguaje Oil INCI Name: *Mauritia flexuosa* fruit oil CAS Number: 394239-67-9
Quality Parameters: Acid Value (FFA) < 10%
Saponification Value: 173 -212 mg KOH/g

CHIA

Salvia hispanica

The Ancestral Superseed that Powers
Modern Functional Nutrition

CHIA

Chia seeds are one of the most complete and versatile plant-based ingredients.

Naturally rich in Omega-3 (ALA), dietary fiber, and antioxidants, chia is a go-to ingredient for clean-label nutrition and high-value functional food formulations.

Plant-Based

Omega-3
(ALA)

High
Fiber

Antioxidant

Chia's unique fiber matrix supports texture and stability, while its healthy fat profile contributes to nutritional density.

A highly adaptable ingredient for everyday wellness and food & beverage innovation.

Formulation Advantages

- . Natural source Omega-3 (ALA) for nutrition-forward formulations
- . High fiber content to support satiety positioning and structure
- . Clean-label versatility for bakery, cereals, snacks, and beverages
- . Naturally gluten-free ingredient suitable for diverse product lines
- . Easy to incorporate across formats (whole seeds and ingredient blends)

GREEN COFFEE

Coffea arabica

Naturally Rich in Chlorogenic Acids
for Metabolism & Energy

GREEN COFFEE

Green Coffee is an unroasted coffee variety that preserves its natural green color and high concentration of bioactive compounds.

By avoiding the roasting process, green coffee retains chlorogenic acids, making it a highly valued ingredient for functional beverages, supplements, and wellness formulations focused on metabolism and natural energy.

Helps Support Weight Management

Dietary Fiber

Antioxidants

Naturally rich in chlorogenic acid, green coffee is widely used in formulations designed to support metabolic balance, cognitive performance, and sustained energy.

Its lower caffeine content—approximately 20% less than roasted coffee—provides a smooth and controlled energy boost without overstimulation, making it ideal for daily consumption.

Formulation Advantages

- High concentration of chlorogenic acids
- Supports metabolic activity and energy balance
- Contributes to focus, alertness, and reduced fatigue
- Ideal for functional drinks, powders, and supplements

A close-up photograph of several ears of purple corn cobs arranged on a wooden surface. The corn kernels are a deep, dark purple color. The text is overlaid on the center of the image.

PURPLE CORN

Zea mays

Nature's Most Powerful Source of Anthocyanins

PURPLE CORN

Purple Corn is one of Peru's most emblematic native crops, recognized for its deep violet color and exceptional concentration of naturally occurring anthocyanins.

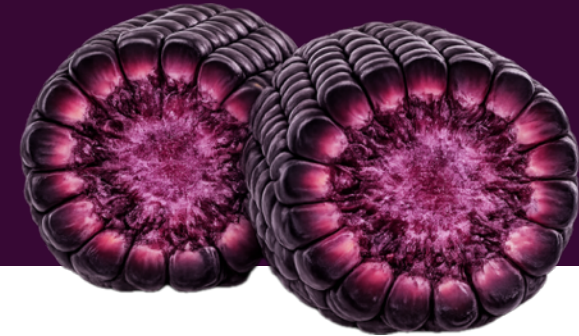

Traditionally valued in Andean culture, Purple Corn has evolved into a highly demanded functional ingredient for modern food, beverage, and wellness formulations worldwide.

Antioxidants

Improves circulation

Naturally rich in anthocyanins, Purple Corn is widely used as a functional ingredient to support antioxidant protection and overall vitality.

Its intense natural pigmentation and mild flavor profile make it a versatile choice for beverages, powdered blends, and clean-label food applications.

Formulation Advantages

- High concentration of naturally occurring anthocyanins
- Powerful natural antioxidant profile
